PHYSICAL EXAM

BP: 144/82 PULSE: 55 R/I TEMP: 97.9° HEIGHT: 5' 11" WEIGHT: 276 lb kg

Constitutional: Alert, NAD, well-developed, well-groomed
-anxious (mild, moderate, severe)
-malnourished
-poorly groomed

Eyes: ☐ nml inspection of conjunctivae / lids
-conjunctivae erythema / exudate (r/l)
-sclera icterus / conjunctivae pale (r/l)
-foreign body (r/l)
☐ peril
☐ nml ophthalmoscopic exam
-abnormal optic disc (r/l)
-hemorrhages / exudates

ENT: ☐ nml external inspection ears / nose
-scars / lesions / masses / pain (r/l)
☐ nml otoscopic exam
-TM erythema / dullness (r/l)
-cerumen (r/l)
-discharge (r/l)
☐ nml nose exam
-mucosal edema / erythema / rhinorrhea (r/l)
-purulent nasal drainage (r/l)
-septal bleeding (r/l)
☐ nml teeth, gums, lips
-poor dentition / dental pain / dental decay
-gum swelling / edema / erythema / bleeding
-lip laceration / lesions / ulcers
☐ nml oropharynx
-pharyngeal erythema
-tonsillar exudate / swelling
-mouth ulcers
-trismus

Neck: ☐ nml supple, no masses / no crepitus / symmetrical
trachea midline / no jvd / no carotid bruits
-thyroid enlargement / pain / masses
-jvd / carotid bruits
-stiff neck / meningismus

Resp: ☐ nml no resp. distress / breath sounds nml
-resp. distress
-wheezing / rhonchi / rales / stridor
-splinting / retractions / air movement
-percussion (dull / flat / hyperresonance)
-tactile fremitus

Lymphatic: ☐ nml no lymphadenopathy
-lymphadenopathy (neck / axilla / groin)

Skin: ☐ nml warm / dry / nml color / no rash
-cyanosis / diaphoresis / pallor
-rash (urticaria / papular / macular / vascular)
-abscess (fluctuant / pinpoint / indurated / draining)

CV: ☐ nml regular rate, rhythm / heart sounds nml
-irregularly, irregular rhythm
-murmur / gallop / rub
-tachycardia / bradycardia
-jvd / carotid bruits / abd. bruits
-decreased peripheral pulses
-peripheral edema / varicosity

Chest: ☐ nml no masses / symmetrical / no nipple d/o
(Breast)
-masses / lumps / pain / lesions
-asymmetrical
-supraclavicular / ax. lymphadenopathy

GI: ☐ nml no tenderness, guarding, rebound or masses / +BS
-hepatomegaly / splenomegaly
-ventral hernia
-anal fissure / hemorrhoids / rectal masses
-good sphincter tone
-gulae positive

GU: ☐ nml (male) testicles / prostate / penis
-hydrocele / spermatocele / cord pain (r/l)
-testicular mass (r/l) inguinal mass, hernia (r/l)
-penile ulcers, sores / urethral discharge
-prostate (enlarged / asymmetrical / mass / pain)
☐ nml (female) ext. genitalia / speculum / bimanual
-vaginal bleeding / discharge / atrophy
-cervical motion tenderness
-adnexal tenderness / mass (r/l)
-enlarged uterus
-cervical discharge / erythema / lesions / atrophy
-urethra masses / tenderness / scarring
-ext. genitalia lesions / abnormal hair distribution
-vagina rectocele / cystocele / uterine prolapse

Neuro: ☐ nml O2 / nml mood & affect / CN II-XII intact grossly
motor & sensory grossly intact
nml reflexes (patellar / achilles / biceps)
-disoriented to person / place / time
-depressed affect / tearful / rapid speech
-facial droop / eom palsy / anisocoria
-weakness / sensory loss / abnormal gait

MS: ☐ foot ☐ ankle ☐ knee ☐ leg ☐ hip / thigh ☐ back (r/l)
☐ hand ☐ wrist ☐ elbow ☐ arm ☐ shoulder (r/l)
☐ nml inspection / rom / non-tender
☐ nml gait / no cyanosis / no clubbing / no edema
-soft tissue tenderness / bony pain
-swelling / ecchymosis
-limited rom
-deformity / joint crepitus / ligament laxity
-pain on leg / arm movement
-gait limited by pain / limping / not tested 2° to pain
-deficit in tendon function (limited extension / flexion)
-muscle spasm / + straight leg (r/l) / vertebral pain
